

Bellows-Sealed Valves

B Series

- Working pressures up to 1000 psig (68.9 bar)
- Temperatures up to 900°F (482°C)
- 1/4, 3/8, 1/2, and 3/4 in.; 6, 10, and 12 mm end connections
- Brass, stainless steel, and alloy 400 materials

Features

Swagelok® B series bellows-sealed valves are available in a variety of models for system versatility.

- Gasketed or welded body-to-bellows seals
- Stem tips for shutoff or regulating service
- Flow coefficients (C_v) from 0.12 to 1.2
- Variety of end connections:
 - Swagelok tube fittings—1/4 to 1/2 in. and 6 to 12 mm
 - Tube socket weld ends—1/4 to 1/2 in.
 - Tube butt weld ends—1/4 to 3/4 in.
 - Female VCR® face seal fittings—1/4 and 1/2 in.
 - Integral male VCR face seal fittings—1/4 and 1/2 in.
- Panel and bottom mounting

Technical Data

Pressure-Temperature Ratings

BG, BRG, BW, and BRW Series

G designates gasket body-to-bellows seal; **R** designates regulating stem tip; **W** designates welded body-to-bellows seal.

BRW series valves are not recommended for shutoff above 600°F (315°C).

Ratings apply to manual valves and to valves with 5 series pneumatic actuators. For actuator ratings, see page 8.

Material	Brass ^①		316 SS		Alloy 400
Series	BG	BRG	BW	BRW, BG, BRG	4BG, 4BW
Temperature, °F (°C)	Working Pressure, psig (bar)

700 (371)	—	—	330 (22.7)	—	—
750 (398)	—	—	300 (20.6)	—	—
800 (426)	—	—	260 (17.9)	—	—
850 (454)	—	—	230 (15.8)	—	—
900 (482)	—	—	200 (13.7)	—	—

For more information about pressure ratings of valves with tube fitting end connections, see Swagelok *Tubing Data*, [MS-01-107](#).

① Due to the brass bonnet threads, cycle life of brass valves may be reduced when operated frequently at pressures above 450 psig (31.0 bar). Brass valves only available with manual or 1 series pneumatic actuators.

Handle Temperature Gradient

316 SS Valves

When Valve Seat Is	Valve Handle Is
600°F (315°C)	195°F (90°C)
900°F (482°C)	275°F (135°C)

BK Series

K designates PCTFE stem tip.

Ratings apply to manual valves and to valves with 1 series or 5 series pneumatic actuators. For actuator ratings, see page 8.

Actuation Mode	Manual and 5 Series Pneumatic Actuators			1 Series Pneumatic Actuators		
				Normally Closed	Normally Open	Double Acting
Material	Brass ^①	316 SS	Alloy 400 ^③	Brass, ^① 316 SS, Alloy 400		
Temperature, °F (°C)	Working Pressure, psig (bar)

Air

Water

Flow Coefficient at Turns Open

Maximum number of turns open for valves with welded body-to-bellows seal:

- 4BRW, 4BW—1.5 turns
- 6BW, 8BW—3 turns

Testing

Every B series valve is factory tested with helium for 5 s to a maximum leak rate of 4×10^{-9} std cm³/s at the seat, envelope, and all seals.

Cleaning and Packaging

Swagelok B series valves with VCR end connections and all BK series valves are processed in accordance with Swagelok *Special Cleaning and Packaging (SC-11)*, [MS-06-63](#), to ensure compliance with product cleanliness requirements stated in ASTM G93 Level C.

Swagelok B series valves with other end connections are processed in accordance with Swagelok *Standard Cleaning and Packaging (SC-10)*, [MS-06-62](#); special cleaning and packaging are available as an option.

Ordering Information and Dimensions

Stainless Steel Valves

Select an ordering number.

Brass and Alloy 400 Valves

Replace **SS** with **B** for brass or **M** for alloy 400.

Example: **B-4BG**

Dimensions, in inches (millimeters), are for reference only and are subject to change.

Alloy 400 not available in 4BR, 6B, or 8B series.

Pneumatic Actuators

Features

- Reliable piston design for enhanced cycle life
- Low actuation pressures
- Aluminum and stainless steel components

1 Series

5 Series

Actuator Series

- 1 series actuator for BK series valves with brass, stainless steel, and alloy 400 bodies
- 5 series actuator for 4B series valves with stainless steel and alloy 400 bodies.
- 5 series actuator for 6B and 8B series valves with stainless steel bodies.

Actuation Modes

Normally closed—air opens, spring closes

Normally open—air closes, spring opens

Double acting—air opens and closes

Materials of Construction

Component	Actuator Series	
	1	5
	Material	
Housing	Aluminum	Cast aluminum
External hardware	Stainless steel	
O-rings	Fluorocarbon FKM	

Technical Data

Ordering Information

Actuators with Stainless Steel Valves

Add an actuator series designator, then an actuation mode designator to the valve ordering number.

Example: SS-4BG-5C

Actuator Series	Designator	Actuation Mode	Designator
1	-1	Normally closed	C
		Normally open	O
5	-5	Double acting	D

Actuators with Alloy 400 or Brass Valves

Replace **SS** with **M** for alloy 400 or **B** for brass.

Example: **M**-4BG-5C

5 series actuators cannot be used with brass valves.

Pneumatic Actuators

Dimensions

Dimensions, in inches (millimeters), are for reference only and are subject to change.

1 Series

Normally Closed and Double Acting

Normally Open

5 Series

Normally Closed, Side

Normally Open and Double Acting, Side

Normally Open and Double Acting, Back

1 Series

Valve Series	Dimensions, in. (mm)	
	A	B
4BK	3.65 (92.7)	1.72 (43.7)
6BK, 8BK	3.76 (95.5)	1.90 (48.3)

5 Series

Valve Series	A in. (mm)
4BG, 4BK, 4BW	4.87 (124)
6BG, 6BK, 6BW, 8BG, 8BK, 8BW	5.05 (128)

Pneumatic Actuator Performance

1 Series Normally Closed and Double Acting

1 Series Normally Open

5 Series

The minimum actuation pressure for normally closed, normally open, and double-acting actuators is 50 psig (3.5 bar).

Options and Accessories

Special Cleaning and Packaging (SC-11)

Swagelok B series valves with VCR end connections and all BK series valves are processed in accordance with Swagelok *Special Cleaning and Packaging (SC-11)*, [MS-06-63](#), to ensure compliance with product cleanliness requirements stated in ASTM G93 Level C.

To order special cleaning and packaging for B series valves with other end connections, add **-SC11** to the valve ordering number.

Example: SS-4BG-**SC11**

BG, BK, and BW Series

Vacuum Stem Tip/Adapters

Vacuum stem tip/adapters help eliminate gas pockets or trapped volumes.

Features include:

- Slotted adapter threads
- Vented adapter cavity
- Copper stem tip on BG and BW series
- PCTFE stem tip on BK series
- Pressure rating equal to that of the standard valve
- Temperature rating of 200°F (93°C) for BK series
- Temperature rating of 400°F (204°C) for BG and BW series.

To order, add an adapter designator to the valve ordering number.

Valve Series	Vacuum Stem Tip/Adapter Designator
BG, BW	-VD
BK	-VA

Example: B-4BG-**VD**

Bellows-Sealed 3-Valve Manifolds

The Swagelok 3-valve manifold uses B or U series bellows-sealed valves for systems with difficult fluid containment requirements.

For more information, see the Swagelok *Bellows-Sealed 3-Valve Manifolds—V3 Series* catalog, [MS-02-07](#).

BG and BK Series

Polyimide Stem Tips

- Provide soft-seat shutoff for temperatures up to 400°F (204°C) or where PCTFE is not compatible with the system fluid
- Are available in manually or pneumatically actuated BG and BK series valves
- Are rated to the same pressure as the standard valve.

To order, add **-VP** to the valve ordering number.

Example: SS-4BG-**VP**

Copper Stem Tips

- Provide metal soft-seat shutoff for temperatures up to 400°F (204°C) or where PCTFE is not compatible with the system fluid
- Are available in manually or pneumatically actuated BG and BK series valves
- Are rated to the same pressure as the standard valve.

To order, add **-CU** to the valve ordering number.

Example: SS-4BG-**CU**

4BKT Series

Colored Toggle Handles

Black handles are standard for toggle-operated 4BKT series valves. For other colors, add a handle color designator to the valve ordering number.

Example: SS-4BKT-**BL**

Handle Color	Designator
Blue	-BL
Green	-GR
Orange	-OG
Red	-RD
White	-WH
Yellow	-YW

Pneumatic Actuator Options and Accessories

1 Series (BK Series)

Indicator Switches

- Transmit a signal to an electrical device indicating either the open or closed position of a pneumatically actuated valve.
- Feature a single-pole, single-throw switch rated at:
 - 1/2 A for 115 V (ac) for normally open switch;
 - 1/4 A for 115 V (ac) for a normally closed switch;
 - -40 to 185°F (-40 to 85°C) temperature.
- Include a 24 in. (61 cm) wire lead with an inline clip.
- Are available factory assembled on normally closed BK series valves with 1 series pneumatic actuators or in kits for field assembly.

Factory-Assembled Indicator Switches

To order a valve with an indicator switch, add **M** for a normally open switch or **M-2** for a normally closed switch to the valve ordering number.

Examples: SS-4BK-1CM
SS-4BK-1CM-2

Indicator Switch Kits for Field Assembly

To order a kit for an existing valve, use ordering number **MS-ISK-BK-1CM** for a normally open switch or **MS-ISK-BK-1CM-2** for a normally closed switch.

Maintenance Kits

Stem tip/adaptor kits, bellows kits, and gasket kits are available for BG, BRG, BK, and BKT series valves. See the Swagelok *Bellows-Sealed Valve Maintenance Kits* catalog, MS-02-66.

Safe Product Selection

When selecting a product, the total system design must be considered to ensure safe, trouble-free performance. Function, material compatibility, adequate ratings, proper installation, operation, and maintenance are the responsibilities of the system designer and user.

⚠ WARNING

Do not mix/interchange Swagelok products or components not governed by industrial design standards, including Swagelok tube fitting end connections, with those of other manufacturers.

5 Series (BG, BK, and BW Series)

Microswitches

- Signal OPEN or CLOSED position of valve to panel or process controller
- Feature single-pole, double-throw switch
- Meet NEMA standard for type 1 and type 3 enclosures
- Include stainless steel mounting bracket
- Are available factory assembled on BG, BK, and BW series valves with 5 series pneumatic actuators or in kits for field assembly.

Factory-Assembled Microswitches

To order a valve with a microswitch, add **M** to the valve ordering number.

Example: SS-4BG-5CM

Microswitch Kits for Field Assembly

To order a kit for an existing valve, use ordering number **MS-5CMK-4B** for 4B series valves or **MS-5CMK-8B** for 6B and 8B series valves.

Actuator Conversion Kits

The actuator conversion kit converts a B series valve with a Swagelok 3 series pneumatic actuator to a valve with a 5 series pneumatic actuator.

Valve Series	Actuation Mode	Actuator Conversion Kit Ordering Number
4BG, 4BK, 4BW	Normally closed	MS-5CK-4B
	Normally open	MS-5OK-4B
	Double acting	MS-5DK-4B
6BG, 6BK, 6BW, 8BG, 8BK, 8BW	Normally closed	MS-5CK-8B
	Normally open	MS-5OK-8B
	Double acting	MS-5DK-8B

Oxygen Service Hazards

For more information about hazards and risks of oxygen-enriched systems, see the Swagelok *Oxygen System Safety* technical report, MS-06-13.

- ⚠ **To increase service life, ensure proper valve performance, and prevent leakage, apply only as much torque as is required to achieve positive shutoff.**

Warranty Information

Swagelok products are backed by The Swagelok Limited Lifetime Warranty. For a copy, visit swagelok.com or contact your authorized Swagelok representative.
